SAFIR

The Ambassadors Program

The **AIUC** Ambassadors Program

SAFIR is the AIUC Ambassadors Program designed to recognize and empower select members who are committed to advocating for Responsible AI practices. This program will enable influential members to promote the Council’s mission actively, extend its global reach, and foster a community dedicated to **Responsible AI** development and governance based on **5 principles**:

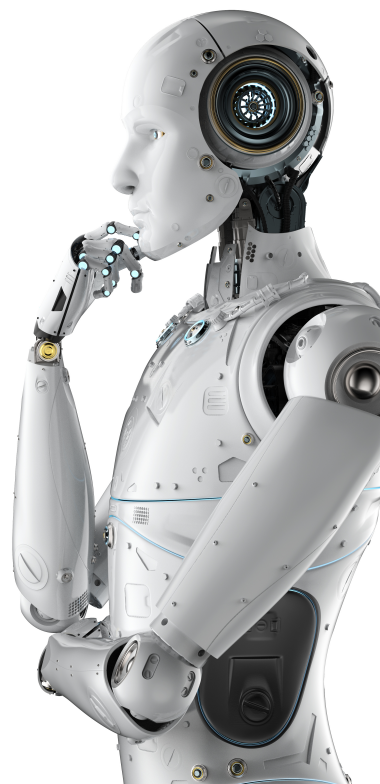

Safety

Accountability

Fairness

Inclusivity

Responsibility

Objectives

Unifying Voices, Amplifying Impact

Promote

Promote Responsible AI

By engaging in outreach, Ambassadors encourage responsible AI adoption, ethical governance, and cross-sector collaboration.

Advocacy

Elevate the council's Global Presence

Ambassadors act as advocates for responsible AI practices within their networks, expanding the Council's influence globally.

Support

Support Council Initiatives:

Ambassadors help drive the Council's initiatives by actively participating in programs, events, and strategic discussions.

Encourage

Strengthen Member Engagement

Ambassadors lead initiatives within the Council, creating a more dynamic and interactive member environment.

Awareness

Champion AI Best Practices

Ambassadors advocate for responsible AI practices, supporting the Council's vision in industries and regions worldwide.

Growth

Attract New Members:

Through outreach, Ambassadors expand the Council's membership base by engaging potential members and stakeholders.

Benefits

Exclusive Perks for Exceptional Leaders

1 Professional Recognition

Professional Recognition: Featuring on the AIUC website and across social media platforms, establishing Ambassadors as influential figures in responsible AI.

2 Elite Networking

Opportunities to connect directly with AI leaders, policymakers, and stakeholders, facilitating high-level collaboration.

3 Leadership Development

Access to specialized training, workshops, and roundtable discussions designed to develop leadership and advocacy skills.

4 VIP Access

Early access to AIUC's studies, reports, and events, with priority invitations to private briefings and Council leadership sessions.

Roles

Leading the Way towards Responsible AI

1 Advocacy and Outreach

Actively promoting the Council's initiatives, and membership opportunities through personal and professional networks.

2 Event Participation

Regular participation in Council events, discussions, and key initiatives, representing the Council's vision of responsible AI.

3 Leadership in Initiatives

Leading Council focus groups, contributing to research efforts, and facilitating discussions on emerging issues in AI ethics and governance.

4 Content and Insight Sharing

Engaging the Council community by sharing insights, articles, and case studies related to responsible AI practices.

Selection

Criteria to be AIUC SAFIR.

Ambassadors will be selected by council Founders and will act as the Council's voice across the world, ensuring responsible AI practices reach all sectors and communities.

Commitment to Responsible AI

Proven dedication to ethical AI, reflected in advocacy, research, or education.

Industry Influence and Reach

A strong network and experience within AI, technology, or policy fields, with demonstrated leadership capabilities.

Background Diversity

The Council seeks Ambassadors from varied sectors, industries, and geographic regions, ensuring global representation.

Success

Measuring Success, Inspiring Growth.

Expansion of Global Influence:

Greater representation and participation in international AI forums, discussions, and policy development.

Increased Membership:

Growth in Council membership attributed to Ambassadors' outreach.

Enhanced Program Engagement:

Higher participation rates in Council events and initiatives.

Member Contributions to Content:

Active sharing of AIUC's insights, best practices, and success stories from Ambassadors' advocacy efforts.
